

# TRICARE Users Consumer Watch

## South ♦ Quarter 2 FY 2012

DEFENSE HEALTH COST ASSESSMENT & PROGRAM EVALUATION

Source: Health Care Survey of DoD Beneficiaries

### Inside Consumer Watch

TRICARE Consumer Watch is a brief summary of what TRICARE users in your region say about their healthcare. Data are taken from the Health Care Survey of DoD Beneficiaries (HCSDB). The HCSDB includes questions from the Consumer Assessment of Healthcare Providers and Systems (CAHPS), a survey designed to help consumers choose among health plans.

Rates are compared with averages taken from the 2011 National CAHPS Benchmarking Database (NCBD), which contains results from surveys given to beneficiaries by civilian health plans. Rates differing significantly from the benchmark are bolded and shown in red.

Figures 1 through 4 show the proportion of Prime enrollees with a military PCM (direct care), or enrolled to a civilian PCM, or using Standard/Extra for most of their care in the past year (purchased care) who respond 8 or above when asked to give a rating on a 0 to 10 scale (0 is bad, and 10 is good), for Health Care, Health Plan, Personal Doctor, or the Specialist they see most often. Rates are adjusted for age and health status.

#### Legend:

- Direct Care
- Purchased Care
- Benchmark
- \* Significantly different from Benchmark

### Health Care Topics

Health Care Topics scores average together results for related questions. Each score is the percentage who “usually” or “always” got treatment they wanted. Asterisks show values significantly different from the NCBD benchmark ( $p < .05$ ).

Figure 5 presents the composites “Getting needed care”. Scores are based on patients’ problems getting referrals and approvals and getting needed treatment.

“Getting care quickly”, shown in Figure 6 scores concern how long patients wait for an appointment or wait in the doctor’s office.

Scores in Figure 7, “Doctor’s communication” are based on whether the doctor spends enough time with patients, treats them respectfully and answers their questions.

Figure 8 shows “Customer service” scores, which concern patients’ ability to get information about their health plan.

“Claims processing” scores in Figure 9 are based on the timeliness and correctness of plan’s claims handling.

## Preventive Care

The preventive care table compares TRICARE users’ rates for diagnostic screening tests and smoking and tobacco use cessation with goals from Healthy People 2020, a government initiative to improve Americans’ health by preventing illness. A new metric for the non-smoking rate is used: current non-smokers.

Rates that are significantly different (p < .05) from the Healthy People 2020 goal are shown by red italics.

Preventive Care					
Type of Care	Qtr 3 FY 2011	Qtr 4 FY 2011	Qtr 1 FY 2012	Qtr 2 FY 2012	Healthy People 2020 Goal
Mammography (women > 40)					81
Direct Care	89	84	89	91 (345)	
Purchased Care	87	85	90	92 (162)	
Pap Smear (women > 18)					93
Direct Care	88	90	90	92 (747)	
Purchased Care	85	86	89	89 (288)	
Hypertension Screen (adults)					95
Direct Care	87	90	92	89 (1718)	
Purchased Care	92	95	93	96 (457)	
Prenatal Care (in 1st trimester)					78
Direct Care	81	90	90	95 (86)	
Purchased Care	.	.	92	.	
Percent Not Obese (adults)					69
Direct Care	80	79	83	79 (1686)	
Purchased Care	71	70	72	75 (445)	
Non-Smokers (adults)					88
Direct Care	85	82	84	85 (1669)	
Purchased Care	83	88	83	91 (445)	
Counseled to Quit (adults)					-
Direct Care	77	84	88	80 (317)	
Purchased Care	82	85	89	90 (55)	

Numbers in red italics are significantly different from the Healthy People 2020 goal (p < .05).
